

# sgapiGetPipeSkus(%%questionID)

Last Modified on 03/22/2016 3:51 pm EDT

---

This function returns an array of skus=>values for the given question-piped question.

## Example

[Check it out in an Example Survey](#)

For example if we question pipe from the below question...

**Which pets do you have? (Mark all that apply) \***

Dog

Cat

Bird

Into this question and output the pipe skus using the script below...

**Do you take your Cat for regular vet visits? \***

Yes

No

---

**Do you take your Dog for regular vet visits? \***

Yes

No

```
%%output .= sgapiPrint_R(sgapiGetPipeSkus(3));
```

The output would be: Array ( [10001] => Cat [10002] => Dog )
