sgapiSetPipeValues(%%questionID, %%array)

Last Modified on 08/06/2014 1:22 pm EDT

This function question pipes the given question based on the values specified in %%array.

Example

The below example question pipes the array from question ID 4, a checkbox question, and question pipes question ID 5 from this array of values.

[Check it out in an Example Survey](#)

```
%%valuestopipe = sgapiGetValue(4);
%%pipetarget = 5;

sgapiSetPipeValues(%%pipetarget, %%valuestopipe);
```
