

sgapiSort(%%array, %%flag)

Last Modified on 01/30/2015 4:32 pm EST

This is equivalent to the [sort](#) function in PHP. This function sorts an array. Elements will be arranged from lowest to highest when this function has completed.

The %%flag parameter defaults to "SORT_REGULAR". See the PHP documentation to learn more about %%flag options.

To see an example or learn more other PHP functions and PHP programming, visit [PHP Documentation](#).
